What should I expect when calling SAIV?

GREETING AND INTRODUCTION

Once you are connected, a SAIV Helpline specialist will greet you and share important information regarding confidentiality.

SAFETY ASSESSMENT

You will be asked for basic info that will ONLY be used in urgent situations to deploy emergency services and assess for urgent safety concerns. You are not required to answer, and your information will not be shared with Title IX or constitute a report.

DIRECT SUPPORT AND REFERRALS

The specialist will offer support by talking through on-campus or community resources, describing available services, and/or providing emotional support, crisis counseling, and safety planning as needed.

The SAIV Helpline will replace the current SARC (Sexual Assault Response & Consultation Team) hotline. The phone number-(202) 994-7222- will remain the same.
